Project Name	Project – NEWS Tracker Application
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	There are multiple NEWS sharing apps used by a single user and often spammed with notifications. As our lives are very busy these days, we often feel we need more than 24 hrs. a day to cope up with everything we have in our schedule. Well, that is not possible but reducing the time by changing the conventional method of reading news can help. Just tell us what market news you are interested in and get a quick peek for the day. Only read what you feel is relevant and save your time. This app helps you to query for all information about Indices, Commodities, Currencies, Future Rates, Bonds, etc.
2.	Idea / Solution description	The user interacts with the application. Subscribe to traditional news sources using your mobile phone. Listen to Podcasts. Download a news aggregator.
3.	Novelty / Uniqueness	In this project we use IBM cloud, HTML, JavaScript, Python-Flask, Kubernetes, Docker, IBM Container Registry. These makes project as more unique than others.
4.	Social Impact / Customer Satisfaction	Customer satisfaction is crucial to the success of every business. Customer can easily watch a news in mobile application in no time. The technology is growing, people can see news in online anytime and everywhere with the help of internet.
5.	Business Model (Revenue Model)	The application of news tracker has lead to higher levels of acceleration, growth and adaptability than ever before. publishers have become aware that the sale of online news cannot generate enough revenue to survive.

6.	Scalability of the Solution	NEWS Tracker Application is useful for all people in the world. We can use this app everywhere and anytime with the help of internet.so the user can easily able to watch the news.
